

Discover DEV PACK – the right place for your needs

Who we are

What can we offer

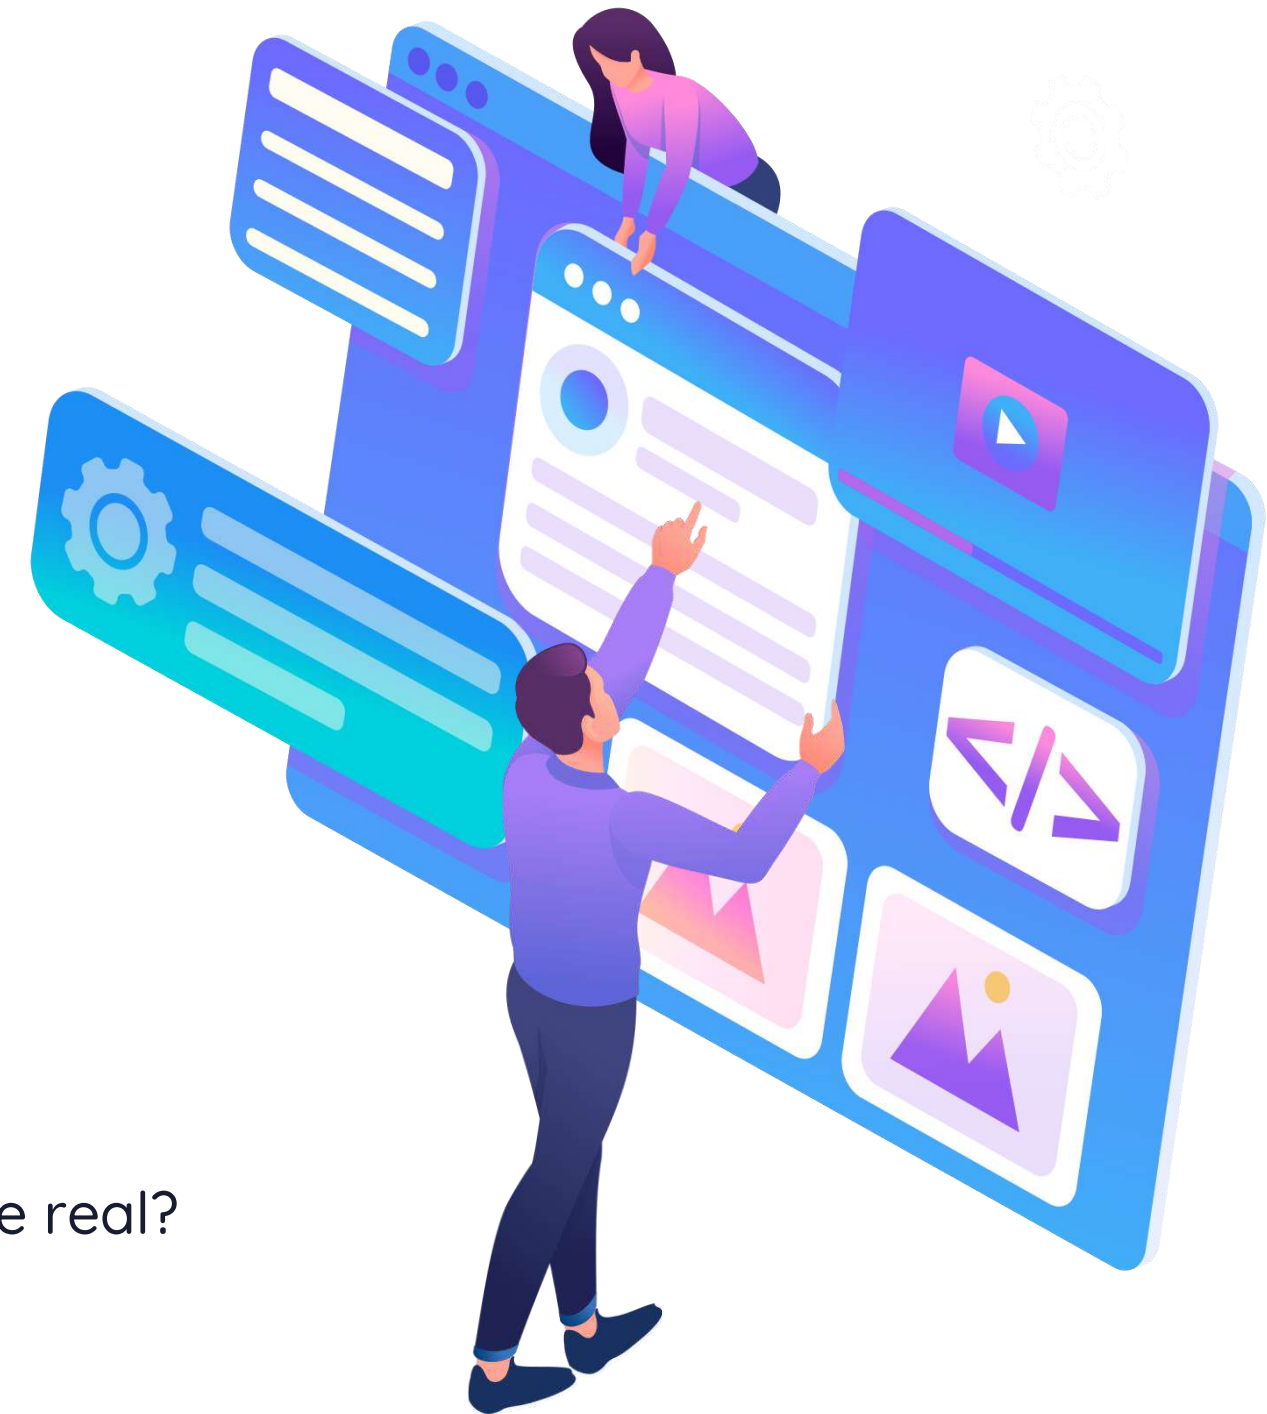

We connect experienced **developers** with our clients needs.
In **DEV PACK** you will find wide range of software development,
quality assurance and **testing**, combined with precise **project**
management in one place.

- `var` A = Certified project management team ;
- `var` B = Documentation and Budget on track;
- `var` C = Professional tools and detailed reporting;
- `var` D = Support through the whole project lifecycle ;

If you consider

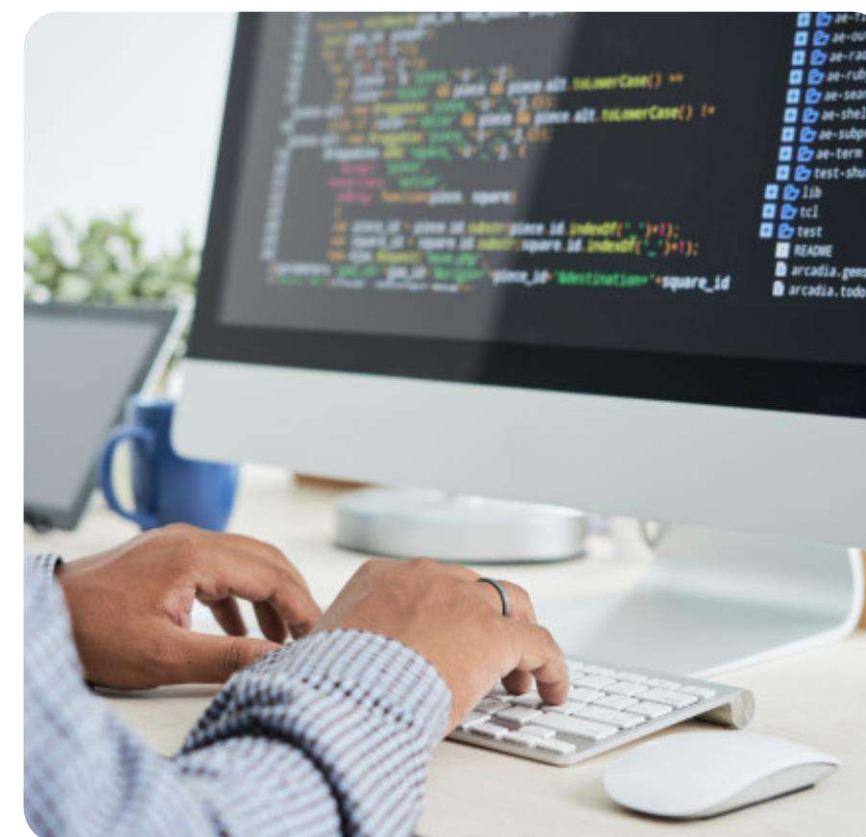

- ✓ Lack of capacity? No capacity or skills to define project scope?
- ✓ Missing project managers for your idea?
- ✓ Priority to use your own capacity to deal with other business activities?
- ✓ No time or skills for proper documentation and reporting?
- ✓ Requirements for independent view on your project portfolio?
- ✓ Need to identify and mitigate risk and issues before they become real?
