

Discover DEV PACK – the right place for your needs

Who we are

What can we offer

We connect experienced **developers** with our clients needs.

In **DEV PACK** you will find wide range of software development, **quality assurance** and **testing**, combined with precise **project management** in one place.

`var` A = Certified testing team ;

`var` B = Documentation and QA team ;

`var` C = Independent software testing ;

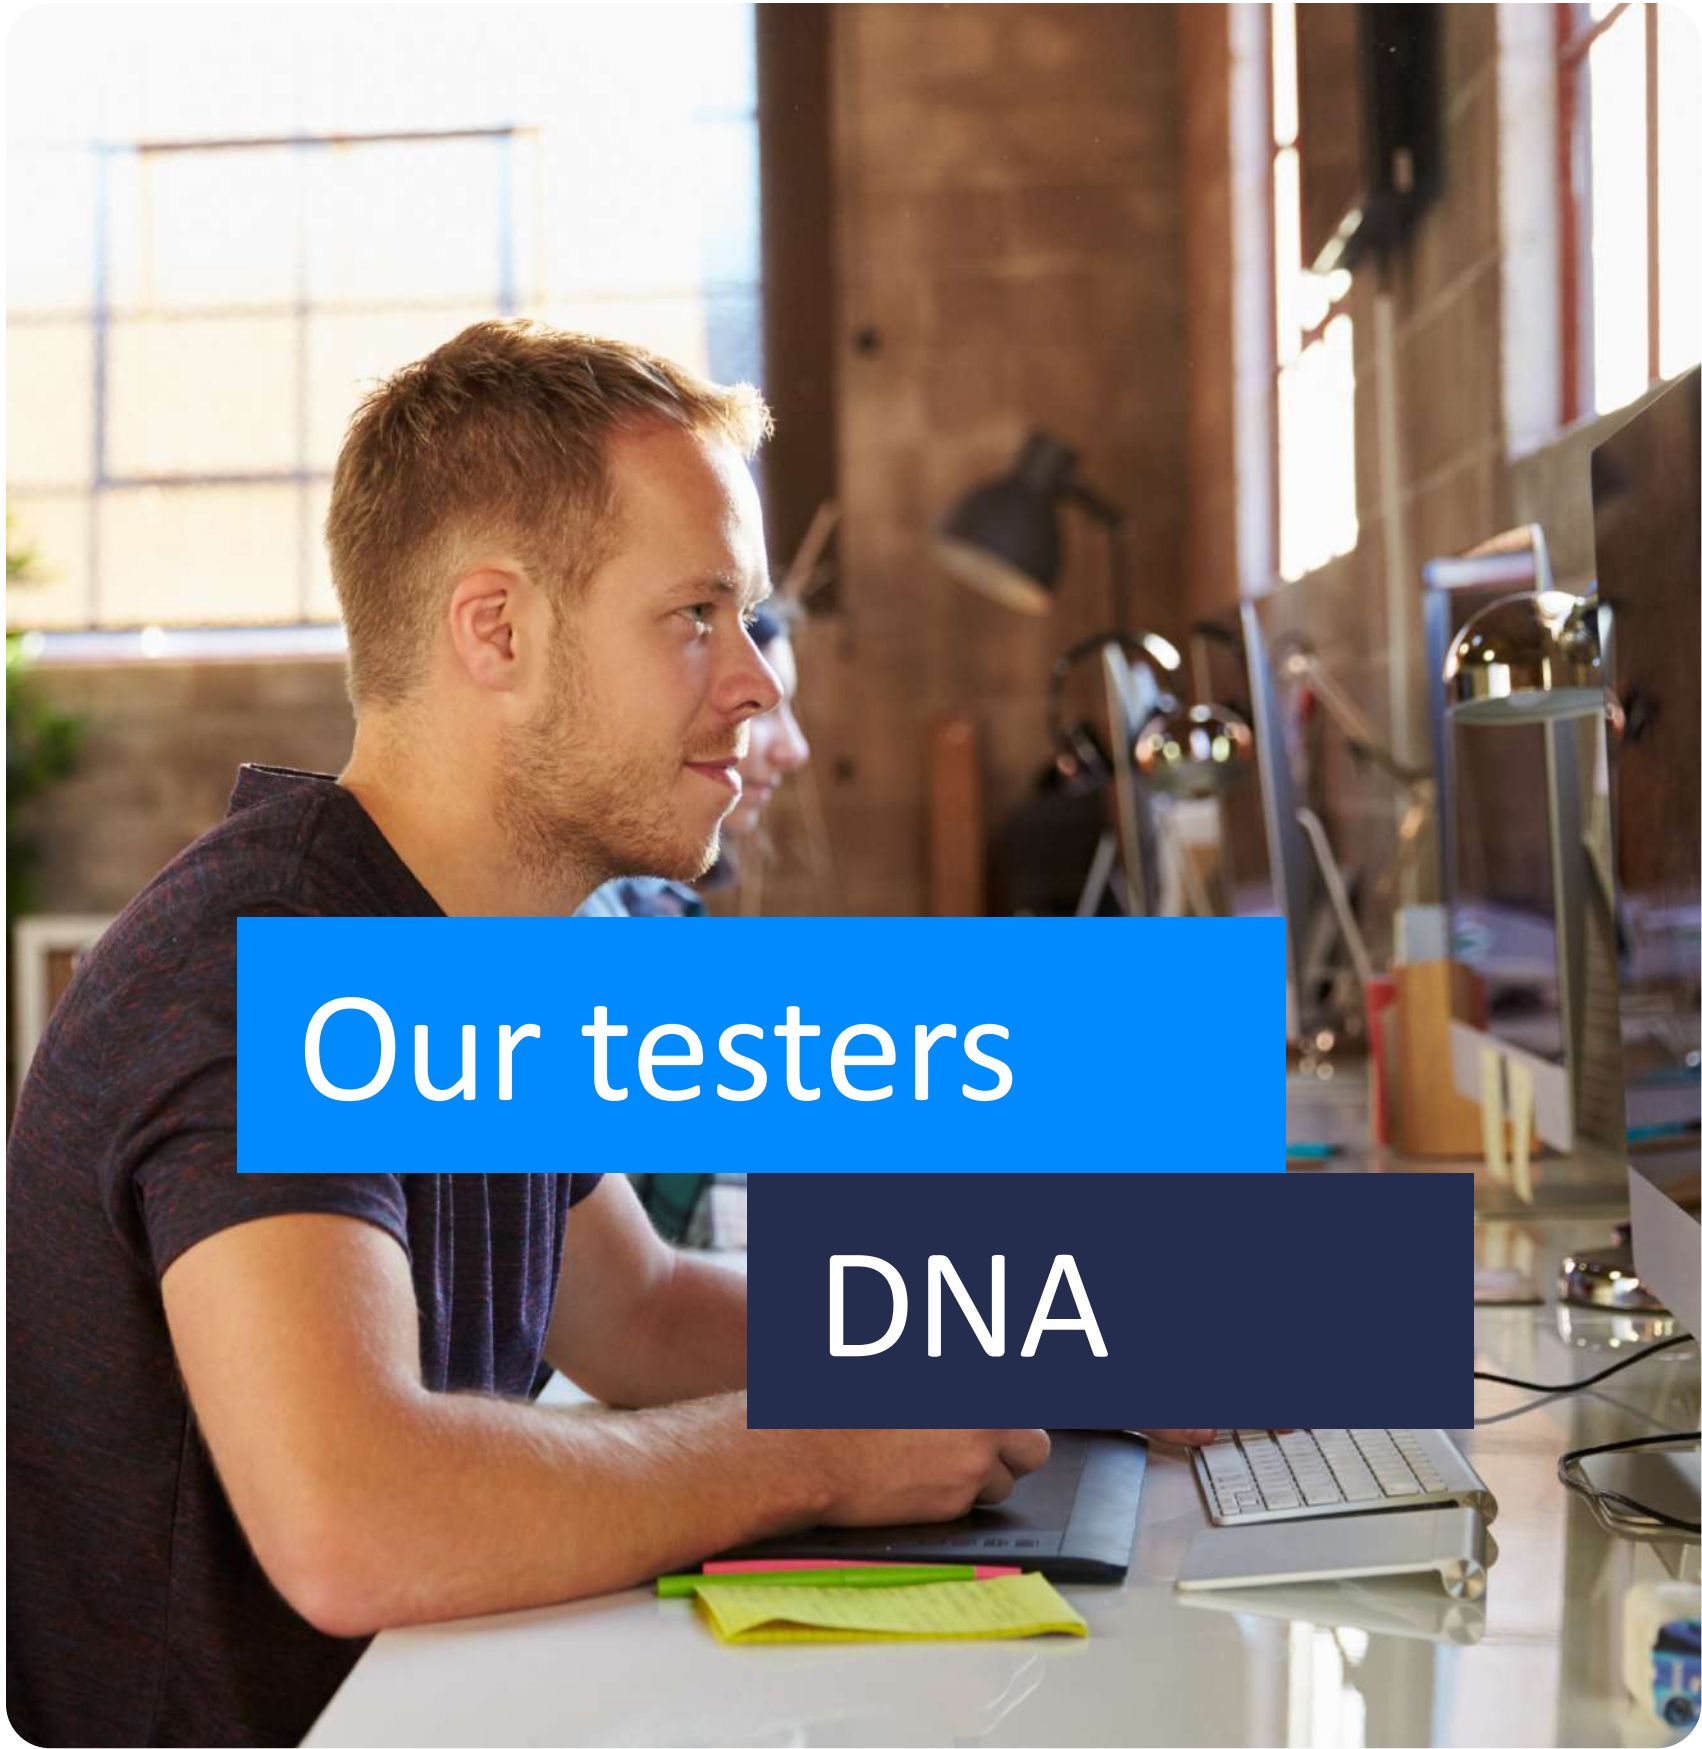

`var` D = Support throughout the whole development cycle ;

If you consider

- ✓ Lack of capacity? No capacity or skills for testing?
- ✓ Missing testing support for your projects?
- ✓ Priority to use your own capacity to deal with other business activities?
- ✓ No time or skills for documentation?
- ✓ Requirements for independent view on your software?
- ✓ Need to identify and mitigate system errors and bugs before users find them?

Our testers

DNA

Professionality

We deliver high quality with the best people in our team.

Preciseness

Precise planning and time management is our main advantage.

Proactivity

We always think ahead for you.
